

Sportnex NS-2R

- Using the latest tyre technology, the new NS-2R boasts massive performance for both road and track. Available in a growing size range from 13" up to 18", the NS-2R is not a tyre to be overlooked by anybody looking for high performance rubber. Available in two compounds Track (soft) and Street (medium) there is an NS-2R to suit everybody's performance tyre needs.
- The NS-2R is the control tyre for race championships such as the English and Spanish Compact Cup, 350 Challenge, Formula Cup, MS Cup and M&S championship. The NS-2R is proving very popular in the pits and amongst driving enthusiasts.
- Whilst most track tyres only have one thing in mind, the NS-2R hosts an array of talents, not only as a fast tyre, but as a consistently fast tyre. Lap after lap come rain or shine. The tread design also gives the driver the confidence to drive to and from a race meeting or track day in dry or often wet conditions without the need to change tyres at the event.
- TREADWEAR index : 120 (track*), 180 (street*) and the new 100/80 (race*)
- All compounds are road legal with the exception of certain sizes
