

S826

The S826 is an all position tyre suitable for short-mid ranged range vehicles driving on mixed service roads. The strengthened bead construction enhances durability.

Features & Benefits:

- The open shoulder design allows the tyre to run cool.
- The strengthened shoulder ribs and protrusions within the grooves improve scratch resistance and uniform wear.
- The unique groove design ensures driving stability and improves self-cleaning capabilities.
- The grip angle of the tyre reduces rolling resistance for improved fuel economy.
- Unique tread formula effectively improves puncture resistance.
- The tread pattern grooves improve handling and grip.
