## SURETIRE PLAN

The Surefire Way to Keep You Moving

### HANKOOK '30 DAY FREE TRIAL' PLAN

If you are not 100% satisfied for any reason with your purchase, simply bring the tires and proof of purchase back to the place of purchase within 30 days for a new set of Hankook produced tires, and we will take care of the rest.

### LIMITED WARRANTY & TREADWEAR MILEAGE WARRANTY

Hankook's Limited Warranty covers workmanship and material issues for the duration of the usable tread. We also provide very competitive Treadwear Mileage Warranty, which covers up to 90,000 miles on select replacement products.

### ROAD HAZARD WARRANTY

If a tire becomes unserviceable due to a non-repairable road hazard, qualifying tires will be replaced at no cost with a comparable Hankook tire. Customers are responsible for all associated service and labor costs.

LIMITED TREADWEAR WARRANTY

**70,000**  
MILE

## Treadlife

\* Based on internal mileage test

LASTS UP TO  
**12% LONGER**

Compared to competitor product which provides the same mileage warranty

## New All-Season Compound

Dynapro HPX achieves maximum longevity with a new All-Season compound and an increased contact area that evenly distributes ground pressure to ensure even wear.

Features and Benefits

# ENHANCED SAFETY

## Improved All-Season Grip and Handling

### 3D GripKontrol Sipes

The 3D GripKontrol sipes are placed on the main treads to keep the tire in an optimized shape. This helps to provide outstanding grip and handling performance in All-Seasons.

### Snow Braking

Improved by **4%**  
compared to its predecessor

### Wet Braking

Improved by **15%**  
compared to its predecessor

### Wet Handling

Improved by **7%**  
compared to its predecessor

Features and Benefits

# ASSURED COMFORT

## Minimized Tread Pattern Noise

### Knurling Technology

The knurling technology applied inside the grooves effectively reduces tread pattern noise during road contact by narrowing the air path, without losing the groove's intended features.

### Optimized Multi-Pitch Sequencing

Tire noise can be drastically reduced by optimizing the pitch sequence. The Dynapro HPX has optimized the number and size of pitches to ensure a quieter ride.
