CONQUER GREATER DISTANCES

Engineered durability for uniform wear

Designed for Balanced Wear

To maximize durability, the tire is designed to ensure uniform contact with the road. The square-shaped profile of the tire and carefully angled shoulders reduces uneven wear at the center, delivering steady and long-lasting performance.

Mileage Improved **5%**

Features and Benefits

SECURE GRIP, EVERY SEASON

Stable control with optimized tread design

Reliable Handling

To improve driving control on all surfaces, the contact area with the road must increase uniformly at a consistent rate. The Dynapro HP3 ensures excellent cornering stability thanks to its optimized tire profile.

Dry Handling

Improved **4%**

Performance Improvement Gap from
Dynapro HP2 to **Dynapro HP3**

Broader Tread Blocks
for Improved Grip

Wide

Improved Braking

Braking performance has been improved over wet roads to maximize control in challenging conditions. With narrower main grooves, wider lateral grooves and refined keft design, we offer consistently reliable driving performance year round.

Wet Braking

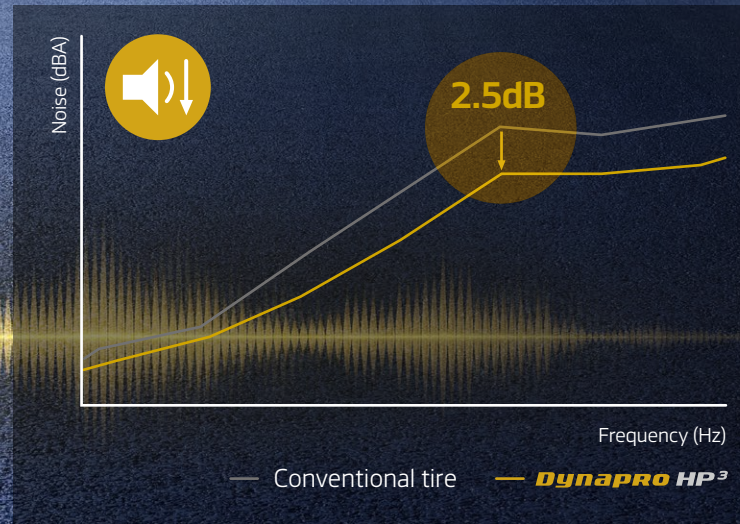

Improved **2%**

Dynapro HP2 to **Dynapro HP3**

Features and Benefits

QUIET, RELAXING DRIVES

Noise-reducing technology for enhanced comfort

Innovative Noise Reducing Knurling

Hankook Tire's patented E-shaped knurling technology enhances ride comfort by reducing driving noise. Strategically applied in the main grooves, the knurling design features carefully placed ridges to decrease resonance, a common cause of tire hum. By precisely adjusting the height of each sipe, the noise generated by grooves is significantly reduced, creating a ride that's quiet and comfortable.
